- Located in Sandnes, Norway
WITHOUT A LOT OF CASH – DRONE INDUSTRY STOPS

• Investments in 2017 over 1 billion USD

• Estimated to be over 3000 drone startups globally

• Estimated that only 200 of these works with cutting edge tech

• Estimated that ONLY 10-15 of the startups has a value of more than 10 million USD

SO, who are the 2800??? And who will bring the cash??
The impact of drones on the UK economy

Skies without limits
